Full Stack Mobile App Developer Course (Flutter & Typescript Backend)

Sachin Verma

Software Engineer @ Monkhub | Flutter · Node.js · Go | Kafka · Redis · PostgreSQL · AWS · Docker · Kubernetes | 6+ production apps shipped

Bengaluru, Karnataka, India

Summary

I'm a full-stack engineer with nearly 3 years of experience building Flutter apps and the backend systems behind them at product startups, including healthtech.Highlights:- Shipped 6+ production mobile apps in Flutter- Designed microservices with real-time features using Kafka and WebSockets- Cut database query times by 40–45% through database optimization- Containerized and deployed services with Docker and Kubernetes, with CI/CD on GitHub Actions- Led code reviews that reduced production bugsI care about systems that hold up at scale: fast, observable, and easy to reason about.Stack: Flutter · Dart · Node.js · Go · Kafka · Redis · MongoDB · PostgreSQL · AWS · Docker · Kubernetes · GitHub ActionsOpen to full-stack engineering roles (SDE-1/SDE-2) — Gurugram, Bangalore, Remote. Reach me at vermas7008@gmail.com.

Experience

Monkhub Innovations

Software Engineer

July 2025 - Present (1 year 4 months)

Gurugram, Haryana, India

Srijana Healthcare Solutions Private Limited

Software Engineer

February 2024 - March 2025 (1 year 2 months)

Bengaluru, Karnataka, India

Ritual Softech

Flutter Developer

November 2023 - January 2024 (3 months)

- Built an E-School mobile app in Flutter for Android and iOS
- Managed app state with Provider and integrated third-party APIs and services

Unio Labs

Flutter Developer Intern

June 2023 - July 2023 (2 months)

- Built a reusable base screen class that generates UI components and handles navigation across screens, reducing duplicated code
- Implemented authentication, data models and API integration

Toycel

Software Engineer - Product Development (Intern)

April 2022 - June 2022 (3 months)

- Built a real-estate app from scratch in Flutter for Android and iOS, connecting builders, channel partners and authorities in one system

---

Education

Jaypee University of Engineering and Technology

Bachelor of Technology, Computer Science · (September 2020 - May 2024)
